Pork and Vegetable Meatballs

Makes: 24

Prep time: 10 minutes + 20 minutes to set

Cooking time: 5-7 minutes

Ingredients:

- 500g lean pork or chicken mince
- 1 small onion, grated or finely chopped
- 1 carrot, grated
- 1 zucchini, grated
- 1 Tablespoon of worcestershire sauce
- 1 Tablespoon of tomato sauce

Use within 3 days.

Tip:

These meatballs can be frozen cooked or raw for approximately 1 month. If freezing raw, store in a single layer. Defrost overnight in the fridge. Cook raw meatballs according to recipe instructions.

Remember:

Keep meatballs cold in an insulated lunchbox. If the lunchbox cannot be refrigerated throughout the day, also use an ice brick.

TIPS FOR FUSSY EATING

- Lead by example, try to share the enjoyment of healthy food with your children.
- Expect rejection of new foods - this is normal for young children.
- Children may need to try a food up to 15 times before they accept it.
- Encourage children just to "taste". One bite will do. This is the start of learning to like new foods.
- Aim to keep trying.
- It's best not to give in with preferred foods because "they have to eat something".
- Praise efforts and try to ignore unwelcome behaviour.

**It's OK....
remind yourself that one
day your child is likely to
eat a whole range of foods
and enjoy them!**

It's best that:

- **The adult decides what types of foods are offered, and when.**
- **The child decides which foods to eat, and how much to eat, from the choices provided.**

Try not to:

- **Bribe children with the promise of a food reward**
- **Insist they eat everything on the plate**
